

20TH European Congress
of Internal Medicine
9-11 June, 2022 | Malaga, Spain

ULTRASOUND WORKING GROUP REPORT

8-06-2022

- **European survey about POCUS situation:**

- Get information about the situation of POCUS in different European countries
- Establish a working net (detecting people and centers interested in POCUS).
- The survey will be distributed to the different European societies and on individual basis.

- **EFIM POCUS certification:**

- This is one of the most important aims of the WG.
- Certificate centers and physicians.
- First step: to define criteria and competences (Spanish and Italian documents that are available).

- **EFIM congress workshop organization.**

- There will be a **workshop** with three parts on the 9th of June:
 - ABC of lung ultrasound
 - Focused cardiac ultrasound
 - Handheld devices.

- **International Webinars.**

- There is a project proposed by Prof Irene Ma / **CIMUS** (Canada), **Society of Hospital Medicine, Society of acute medicine** and **Winfocus**.
- 3-5 webinars about POCUS in internal medicine with different topics

May 5th, 2022 at 17:00 CEST

WINFOCUS, CIMUS, CSIM and EFIM present

[Internal medicine ultrasound: 10 years on](#)

Join a panel of thought-leaders and experts from Europe and the Americas in a discussion of lessons learned, challenges and possible solutions in the current landscape of internal medicine Point-of-Care Ultrasound.

This panel will field key questions currently confronting POCUS in Internal Medicine. Questions from the audience will be presented to the panel during this live interactive webinar moderated by two international leaders in Internal Medicine sonology.

Please be ready to share your questions, doubts, and concerns!
