• Young Internists is a section of the European Federation of Internal Medicine
• The term ‘Young Internist’ refers to doctors in training in internal medicine and to doctors in the early years of their senior posts (MD/PhD students). All young specialists and trainees who belong to an EFIM member society are members of the Young Internists Section. The criterion for the definition of a Young Internist member is until 5 years after qualification as a specialist in internal medicine (regardless of age).
The officers of the board are **elected by the Assembly** for a period of **1 term of 2 years**. The Chair is elected by the Assembly for a period of **1 term of 2 years**. Either National Representative or Board Officers can apply as Chair.

The board appoints the **Secretary among its members**. The Secretary steps down automatically from her/his Office once the term as Board Officer expires.
The Young Internists Assembly

- 27 members
- 3 main officers (Chair, Past-Chair, Secretary)
- 22 countries
- 24 from 31 EFIM Member National Societies
